# Heritage Cotton Blend

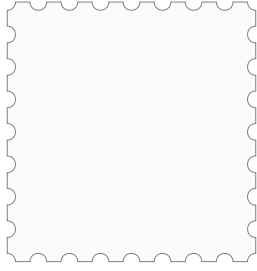

Our Heritage Cotton Blend fabric is used to design ethnic pants, offering a steady stand with a balanced drape that shapes cleanly into tailored forms. Guided by the natural qualities of cotton, it stays breathable, manages moisture, and keeps the garment feeling light through the day. The surface remains smooth, reducing friction and preventing bubbling, while allowing ease of movement without trapping heat. Structured enough to hold traditional silhouettes, yet relaxed for everyday wear, it carries comfort and confidence in equal measure.
